PREFACE TO ELECTRONICAL EDITION

This volume is an electronic edition of Canadian Chess Problems, published 1890 by C. F. Stubbs, St. John, N.B., Canada and printed by Ellis, Robertson & Co at the "Globe Press."

The important change introduced in this edition is the translation of the solutions into algebraic form; the remaining changes are only editorial. The following printing errors in the original have been corrected:

Problem 38: White K on H7 changed to White Q.

Problem 202: Black to play, not White

All problems have been tested for serious errors, which have been indicated in the stipulation line as follows:

- [†] A problem without a solution in the stipulated nr of moves
- [*] A problem with several solutions
- [\$] A problem with a shorter solution than stipulated

Further details, and an occasional suggestion for correction, can be found in the solution section.
