

## Notes on Electronic Edition

This edition is based on the printed edition published by Philipp Reclam jun., Leipzig in 1887.

All direct problems and selfmates have been computer tested using Matthieu Leschemelle's computer program *Problemiste*. The studies have been manually tested using *Fritz 6* with the Nalimov endgame database. The conditional problems, however, have only been checked for obvious errors.

Problems without a solution have been indicated with [†] after the stipulation, problems with short solutions with [§], and problems with multiple solutions with [\*], and an indication of the problem given after the (original) solution. Important errors discovered in the original solutions have been added in brackets; obvious misprints have been silently corrected.

Solutions have also been changed from long to short algebraic form, and slightly expanded in cases where the extremely contracted solutions of the original seemed excessive. Lines not present in the original solutions have not been added.

## Vorrede

Da ich in zahlreichen von einheimischen und ausländischen Schachfreunden an mich gerichteten Zuschriften ersucht worden bin, den bereits erschienenen beiden Sammlungen eine dritte anzureihen, entspreche ich jetzt diesem mir erfreudlichen und schmeichelhaften Wunsche.

Seit dem Schluß des Jahres 1858 redigiere ich den Schachabschnitt in „Über Land und Meer“ und fühlte mich veranlaßt, hervorzuheben, daß die Teilname für Schachprobleme während der letzten beiden Jahrzehnte sich in auffallender Art gesteigert hat.

In diese Sammlung habe ich fast ausschließlich Aufgaben aufgenommen, welche während der letzten fünf Jahre veröffentlicht worden sind, darunter viele in Turnieren preisgekrönte. Inzwischen ist ein Nachwuchs ausgezeichnete Problemkomponisten in Deutschland und im Auslande in der Vordergrund getreten, während ältere hervorragende Erscheinungen von der Bühne zu verschwinden beginnen.

Zu den deutschen Meistern, die noch in der Vollkraft des Schaffens stehen, gehört Johann Berger in Graz und Franz Schrüfer in Bamberg, zu den ausländischen Pradignat in Lusignan, Nicolo Sardotsch in Triest, ebenso Samuel Loyd in Newyork, Shinkman in Grand Rapids (ein geborener Deutscher).

An diese reihen sich neuerdings in Deutschland die Herren Hermann von Gottschall, Fritz Hofmann, Viktor Mieses und Johannes Obermann, in England Laws, Slater, Studd, Planck, Rayner, in Amerika namentlich A. F. Mackenzie.

Ich hoffe eine ansprechende Auswahl getroffen zu haben und wünsche, daß diese Sammlung ebenso wohlwollend als die beiden ersten aufgenommen werden möge.

Mehreren Schachfreunden, die mir Beiträge zur Verfügung gestellt haben, besonders dem vorzüglichen Problemkomponisten Herrn Martin Anderson in Gotheburg spreche ich hiermit meinen Dank aus.
